CAREER SUMMARY

I am a passionate and results-oriented Business Analyst with a strong foundation in data analysis, business intelligence, and problem-solving. I specialize in transforming complex data into actionable business insights that support data-driven decision-making and improve operational efficiency. With hands-on experience in analytics, visualization, and strategic thinking, I aim to deliver scalable solutions that effectively address real-world business challenges.

PROJECTS

1. Automated Data Cleaning Tool. [PYTHON] | [PROJECT LINK](#)

Designed and deployed an interactive data cleaning web application using **Python**, **Stream lit**, and **Pandas** to automate preprocessing tasks, including handling missing values, eliminating duplicates, and standardizing data formats, ensuring high-quality, analysis-ready datasets. Significantly reduced manual effort, enhanced processing efficiency, and improved data reliability.

2. Retail Sales Performance Power BI Dashboard with Predictive Insights | [PROJECT LINK](#)

Built an end-to-end Retail Sales & Profit Analytics solution by cleaning and transforming raw data using Python (Pandas, NumPy), followed by developing an interactive Power BI dashboard with key KPIs such as sales, profit, quantity, and trends. Delivered actionable insights through data modelling and visualization to support business decision-making.

ACHIEVEMENTS AND LEADERSHIP

Served as the Blue House Leader during my high school years, actively organizing and motivating teams while participating in and winning multiple sports events. Led project teams in both the 3rd and 4th years of my B. Tech program, demonstrating strong coordination and leadership abilities. Awarded First Class distinction in B. Tech (Computer Science and Engineering).

PROFESSIONAL EXPERIENCE

(INTERN) [ORDNANCE FACTORY MINISTRY OF DEFENCE.](#)

➤ Collaborated with cross-functional teams to ensure smooth and reliable system functionality, significantly improving operational efficiency and supporting multiple government-driven initiatives. Gained hands-on experience in large-scale data management, including maintaining and verifying records for thousands of employees. This internship strengthened my understanding of how organizations with a vast workforce maintain data accuracy, operational reliability, and system uptime.

➤ Internship Project: **Power BI: HR Analytics Dashboard.** | [PROJECT LINK](#) | [CERTIFICATE](#)

Analysed HR data to identify workforce challenges such as attrition, performance gaps, and employee engagement trends, and designed an interactive Power BI dashboard to deliver clear, data-driven insights. Enabled HR teams to make informed decisions on retention strategies, hiring, and workforce planning through intuitive visualizations and actionable metrics.

EDUCATION

Degree	College Name	Grade
MBA in Business Analytics. (PG)	MIT- World Peace University Pune. 2026-2027.	Pursuing.
B. Tech in Computer Science & Engineering (UG)	K.D.K. College of Engineering Nagpur, RTMNU. 2025	75.55%
Higher Secondary Qualification (12th)	Macaroon Student's Academy Chandrapur, Maharashtra State Board. 2021	88.00%
Secondary School Qualification (10th)	ST. Anne's High School Sumthana, Maharashtra State Board. 2019	72.40%

TECHNICAL SKILLS

Programming: Python, SQL, R, Git.

ML/DL& GenAI: Scikit-learn, TensorFlow, PyTorch, Generative AI, Retrieval-Augmented Generation (RAG).

Database: MongoDB, MySQL, PostgreSQL.

Libraries: NumPy, Matplotlib, Seaborn, Pandas.

Data Visualization: Power BI, Tableau, Stream lit, Excel.

DevOps & Tools: Git, CI/CD (Basics), Deployment (Vercel/Netlify), Version Control.

Key Competencies: Proficient in data analysis using Python, SQL, and Excel. Skilled in data cleaning, visualization (Power BI/Tableau), and extracting insights from large datasets. Strong in problem-solving, statistical analysis, and presenting data-driven insights effectively.

CERTIFICATIONS

Internship Certificate | Govt. Of India. C / C++ Programming | I-tech Institute. Full Stack Developer | Physics Walla.

Python Programming | I-tech Institute. Machine Learning Basic | Simplilearn. Edu Net Foundation (Data Visualization)

Skills4You.
